

PAVILION II LED Specifications

Project Name:

Catalog Number:

Type:

The **Pavilion II** LED series is a versatile and contemporary fixture ideal for architectural applications where scale and style are essential.

Two cap choices combined with three shapes of shades; allow for a number of design options. The decorative rings are cast aluminum.

Durable polyester powder coat finish is available in an array of architectural colors.

The **Pavilion II** series is an elegant choice for parks, retail settings, restaurants, marinas and sports arenas.

Features & Specifications

PAVILION II

Housing

- The driver housing and reflector shade are constructed from two-piece, heavy-gauge, spun aluminum with a rolled edge for added strength. Choose straight, curved-out or curved-in shades.
- All external hardware is stainless steel.
- Decorative rings are cast aluminum.

Door Assembly

- A cast aluminum tool-less door allows easy access into housing and is fully gasketed with a form-fitting one-piece premium extruded silicone gasket to provide complete weather and insect protection.

Optical System

- The highest lumen output LEDs are utilized. Estimated life of the LEDs is a minimum of 100,000 hours. IES distribution types I, II, III, IV, IV-A, V, V-W or V-WR are standard. Available with up to 80 LEDs. The optical system qualifies as IES full cutoff to restrict light trespass, glare and light pollution for neighborhood-friendly lighting.
- CRI values are 70.

Quali-Guard® Finish

- Aluminum fixture components are chemically pretreated through a multiple-stage washer and finished with an electrostatically-applied, thermoset polyester powder coat textured paint with a minimum of 3 to 5 mils thickness. Finish is oven-baked at a temperature of 400 °F to promote maximum adherence and finish hardness. All finishes are available in standard and custom colors.

Mounting

- Pavilion II mounts to a wide selection of decorative and custom mounting arms for both pole and wall mount applications (see Decorative Arms section of catalog).

Electrical Assembly

- The Pavilion II is supplied with a high-performance LED driver, located in its cap, that accepts 120 V through 277 V, 50 Hz to 60 Hz input. Power factor is 90%. Rated for -40 oF operation.
- 10 kV surge protector supplied as standard.

Warranty

- Five (5) year Limited Warranty on entire system, including finish. For full warranty information, please visit VisionaireLighting.com.

Options

- Button type photocell
- Cutoff louver system
- High-low system
- 0-10 V dimming driver

Listings

- Pavilion II is cUL listed, suitable for wet locations.
- LM79.
- LM80.
- Powder Coated Tough™ .
- RoHS compliant.

Bug Rating -

The subzones are individually rated on a scale from 0 to 5, going from lowest to highest luminous flux. The highest rating of a subzone is considered the overall rating for that zone, and these readings are compiled into the BUG lighting classification: for example, B3 U1 G0. The tables below, which are based on the standards established by the IES, show the thresholds for each subzone.

Bug Rating -

The subzones are individually rated on a scale from 0 to 5, going from lowest to highest luminous flux. The highest rating of a subzone is considered the overall rating for that zone, and these readings are compiled into the BUG lighting classification: for example, B3 U1 G0. The tables below, which are based on the standards established by the IES, show the thresholds for each subzone.

Bug Rating -

The subzones are individually rated on a scale from 0 to 5, going from lowest to highest luminous flux. The highest rating of a subzone is considered the overall rating for that zone, and these readings are compiled into the BUG lighting classification: for example, B3 U1 G0. The tables below, which are based on the standards established by the IES, show the thresholds for each subzone.
